- **O/L Results (2013)** – 8As, 1B (Eng. Literature)

PROJECTS

- Kyuu: Customer and venue order management platform
  AWS, Serverless, ReactJS

Key contributions	o Developed and deployed RESTful APIs
	o Implemented frontend components with state management

- Tech.Fit: Remote task handling console for on-site BOSCH printers
  NGINX, Linux, VPN services

Key contributions	o Created the complete flow to stream multi-site remote camera feeds from a VPN server

- Geoplex Cube Cloud: A GIS based multi-purpose web application
  Docker, docker-compose, Python

Key contributions	o Wrote python scripts for PostgreSQL indexing
	o Created docker images for automation

- ServULink: GIS based web application for infrastructure facilities
  OpenLayers, ArcGIS, ESRI, ReactJS

Key contributions	o Full implementation of map with feature layers
	o Made all components compatible in mobile devices

- Connect Web: Multi-site EHS Management software
  ReactJS, Node

Key contributions	o Implemented complete frontend components
	o Fixed bugs, wrote and performed manual / automated tests
	o Upgraded dependencies of the complete project

- E-Procurement web application for UCSC (3rd Year Group Project)
  VueJS, Express, MySQL, AWS

- Altum: Delivery and Tracking web/mobile applications (2nd Year Group Project)
  React-Native, Firebase, Node, HTML, CSS

- Deep learning Neural Network model for Sign Language Translation (on-going)
  Python, Tensorflow, PyTorch, Keras

NON-RELATED REFEREES

Mr. Buddhiprabha Warnakulasuriya
Tech Lead,
SMBapps Pty Ltd.

Dr. Jeewani Goonethilake
Senior Lecturer / Head of ISE,
UCSC.
